Chair's Letter

20 September 2020

Dear Shareholder

I am pleased to say Consolidated Zinc is on the cusp of achieving our long held strategy of producing zinc and lead concentrate from the Company's wholly owned processing facility at the Plomosas mine site. This follows the awarding in August 2020 of the environmental permitting required to construct a new tailings storage facility there.

To undertake the transition to complete control of concentrate production from the Company's mine, a refurbishment of the existing concentrator and construction of a tailings storage facility are required. The funds to achieve this transition will be raised from this underwritten entitlement issue.

The non-renounceable entitlement offer to Eligible Shareholders is to raise approximately \$2.038 million (before costs) and is fully underwritten by Lazarus Corporate Finance Pty Ltd who have committed to subscribe for any Shortfall (**Entitlement Offer**).

The Entitlement Offer, the details of which are outlined in this Prospectus, is made on the basis of 3 Shares for every 11 Shares held on the Record Date, at an issue price of \$0.003 per Share. Eligible Shareholders will also be entitled to subscribe for Shares under the Shortfall Offer in addition to their entitlement.

Subscribers in the Entitlement Offer will also be issued 1 free-attaching listed options for every 3 Shares subscribed for and issued, exercisable at \$0.006 each and expiring on 1 June 2023. The listed options are quoted under ASX Code CZLOB.

This Prospectus includes further details of the Entitlement Offer, the effect of the Entitlement Offer on the Company, and a statement of the risks associated with investing in the Company. These include risks associated with the Company's financial position, its operations at Plomosas, its mineral resource, zinc and other commodity prices and the Coronavirus (COVID-19) pandemic. Please refer to section 3 for further information on the risk factors.

This is an important document and should be read in its entirety. If you have any doubts or questions in relation to the Prospectus you should consult your stockbroker, accountant, solicitor or other professional advisor to evaluate whether or not to participate.

Please read in full the details on how to submit your application, which are set out in this Prospectus. Enquiries relating to this Prospectus should be directed to the Company Secretary by telephone on +61 8 9322 3406.

I am delighted to support this fundraising along with the major shareholder, the Copulos Group, and other stakeholders.

We have a clear strategy to improve operations at Plomosas through our processing plant designed for Plomosas ore to maximise recoveries and operational efficiencies. I would like to thank all our Shareholders for their ongoing support. I hope you continue with us as we strive to deliver value. We expect the transition to processing at our wholly owned facilities to be significant for the Company and I endorse your contribution to this Entitlement Offer.

Yours sincerely

Andrew Richards
Chair
Consolidated Zinc Limited

1 Offer Details

1.1 Overview

The Company is making a non-renounceable pro rata entitlement offer to Eligible Shareholders on the basis of 3 Shares for every 11 Shares held on the Record Date at an issue price of \$0.003 per Share to raise approximately \$2,038,291, together with 1 free attaching Quoted Option for every 3 Shares issued (**Entitlement Offer**).

Fractional entitlements will be rounded up to the nearest whole number.

Shares issued under the Entitlement Offer will rank equally with other Shares on issue. See section 5.6 for a summary of the rights and liabilities attaching to Shares.

Quoted Options issued under the Entitlement Offer will have the same terms as the Company's other ASX-quoted Options on issue (ASX:CZLOB), which have an exercise price of \$0.006 and expiry date of 1 June 2023. See section 5.7 for the terms of Quoted Options.

1.2 Purpose

The purpose of the Entitlement Offer is to raise approximately \$2,038,291 (before costs), which the Company intends to use as follows:

Item	Amount
Costs of the Entitlement Offer (excluding GST) ¹	\$200,000
Refurbishment of processing plant at the Plomosas Project ²	\$1,838,291
Total	\$2,038,291

Notes:

- 1 See section 5.12 for further details.
- 2 As announced to ASX on 16 September 2020.
- 3 The above table is a statement of the Board's current intention at the date of this Prospectus. However, investors should note that, as with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including the outcome of exploration, operational and development activities, regulatory developments, market and general economic conditions and environmental factors. In light of this, the Company reserves the right to alter the way the funds are applied.

1.3 Eligible Shareholders

For the purposes of the Entitlement Offer, **Eligible Shareholders** are those persons who:

- are registered as a holder of Shares at 5.00pm (AEST) on the Record Date; and
- have a registered address in Australia or New Zealand.

Shareholders who are not Eligible Shareholders are **Ineligible Shareholders**.

In reliance on Listing Rule 7.7.1, the Company has determined that it would be unreasonable to extend the Entitlement Offer to Ineligible Shareholders, having regard to:

- the small number of Ineligible Shareholders;
- the small number and value of the securities which would be offered to Ineligible Shareholders if they were Eligible Shareholders; and

- the cost of complying with the legal and regulatory requirements in the respective overseas jurisdictions.

Accordingly, the Entitlement Offer is not being extended to any Shareholders outside Australia and New Zealand. The Company will notify all Ineligible Shareholders of the Entitlement Offer and advise that the Company is not extending the Entitlement Offer to those Shareholders.

1.4 Nominees and custodians

Shareholders resident in Australia or New Zealand holding Securities on behalf of any persons who are resident in other jurisdictions are responsible for ensuring that applying for Securities under the Entitlement Offer does not breach any laws of any relevant overseas jurisdiction. If an investor returns an Application Form, the Company will take this as a representation that there has been no breach of any laws of any relevant overseas jurisdiction.

1.5 Foreign restrictions

This Prospectus does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or to extend such an invitation. No action has been taken to register this Prospectus or otherwise to permit the offering of securities in any jurisdiction outside Australia.

It is the responsibility of non-Australian resident investors to obtain all necessary approvals and comply with all relevant laws and regulations for the issue to them of securities offered under this Prospectus. The return of an Application Form will constitute a representation and warranty that there has been no breach of such laws and regulations.

1.6 Offer period

The Entitlement Offer will open on the Opening Date and close on the Closing Date.

1.7 No rights trading

As entitlements are non-renounceable, they cannot be traded on the ASX or any other stock exchange, or privately transferred.

1.8 Minimum subscription

As the Entitlement Offer is underwritten, there is no minimum subscription for the Entitlement Offer.

1.9 Oversubscriptions

The Entitlement Offer does not allow for oversubscriptions.

1.10 Underwriting

The Entitlement Offer is fully underwritten by Lazarus Corporate Finance Pty Ltd ACN 149 263 543 (**Underwriter**). The Underwriting Agreement is subject to certain conditions and circumstances under which the Underwriter may terminate its obligations. See section 5.1 for a summary of the Underwriting Agreement.

If for any reason the Underwriting Agreement is terminated before completion, the Company reserves the right to place the Shortfall at its discretion within 3 months after the Entitlement Offer closes.

1.11 Shortfall

In addition to their entitlement, Eligible Shareholders may use their Application Forms to apply for Shares that are not taken up by Eligible Shareholders pursuant to their entitlements under the Entitlement Offer. Successful applications will also be issued 1 free attaching Quoted Option for every 3 Shares issued under the Shortfall.

It is possible that there will be few or no Shortfall available for issue, depending on the level of take up of entitlements by Eligible Shareholders. There is also no guarantee that in the event any Shortfall is available for issue, it will be allocated to all or any of the Eligible Shareholders who have applied for it.

It is an express term of the Entitlement Offer that applicants for Shortfall will be bound to accept a lesser number of Shortfall allocated to them than applied for, if so allocated. If a lesser number of Shortfall is allocated to them than applied for, excess application monies will be refunded without interest. The Company together with the Underwriter reserve the right to scale back any applications for Shortfall in their absolute and sole discretion. When determining the amount (if any) by which to scale back an application, the Company and the Underwriter may take into account a number of factors, including the size of an applicant's shareholding in the Company, the extent to which an applicant has sold or bought Shares before and after both the announcement of the Entitlement Offer and the Record Date, as well as when the application was made.

No Shortfall will be issued to any person under this Prospectus if the issue would contravene the takeover prohibition in section 606 of the Corporations Act.

1.12 Quotation

The Company will apply to ASX within 7 days after the date of this Prospectus for quotation of the Securities offered under this Prospectus. If approval for quotation of the Securities is not granted within 3 months after the date of this Prospectus (or any later time permitted by law), the Company will not issue any Securities under the Entitlement Offer.

1.13 Issue date

An issue of Securities under this Prospectus is anticipated to occur in accordance with the timetable set out in this Prospectus. Following this, holding statements will be sent to investors as required by ASX. It is the responsibility of investors to determine their allocation prior to trading in the Securities. Investors who sell their securities before they receive their holding statement will do so at their own risk.

1.14 CHESS and issuer sponsorship

The Company operates an electronic CHESS sub-register and an electronic issuer sponsored sub-register. These two sub-registers will make up the Company's register of Shares.

The Company will not issue certificates to security holders. Rather, holding statements (similar to bank statements) will be sent to security holders as soon as practicable after the issue date. Holding statements will be sent either by CHESS (for security holders who elect to hold Shares on the CHESS sub-register) or by the Share Registry (for security holders who elect to hold Shares on the issuer sponsored sub-register). The statements will set out the number of securities issued under this Prospectus and the Holder Identification Number (for security holders who elect to hold Shares on the CHESS sub register) or Shareholder Reference Number (for security holders who elect to hold Shares on the issuer sponsored sub-register). Updated holding statements will also be sent to a security holder following the month in which the balance of its security holding changes, and otherwise as required by the Listing Rules and the Corporations Act.

1.15 Privacy

Persons who apply for securities under this Prospectus are asked to provide personal information to the Company, either directly or through the Share Registry. The Company and the Share Registry collect, hold and use that personal information to assess applications for securities, to provide facilities and services to security holders, and to carry out various administrative functions. Access to the information collected may be provided to the Company's agents and service providers and to ASX, ASIC and other regulatory bodies on the basis that they deal with such information in accordance with the relevant privacy laws. If the information requested is not supplied, applications for securities will not be processed.

In accordance with privacy laws, information collected in relation to specific Shareholders can be obtained by that Shareholder through contacting the Company or the Share Registry.

1.16 Tax

It is the responsibility of all investors to satisfy themselves of the particular tax treatment that applies to them in relation to the Entitlement Offer, by consulting their own professional tax advisers. Neither Company or its Directors accept any liability or responsibility in respect of any tax consequences to an investor relating to this Prospectus.

The figures above represent the maximum number of Shares that may be issued if the convertible notes (including accrued interest) are converted into Shares upon their maturity.

2.3 Control

The Entitlement Offer of approximately 679,430,439 Shares and 226,476,813 free attaching Quoted Options (**Underwritten Securities**) is fully underwritten by the Underwriter. See section 5.1 for a summary of the Underwriting Agreement.

At the date of this Prospectus, the Underwriter holds 214,952 Shares, 15,000,000 Quoted Options and 13,000,000 unquoted Options exercisable at \$0.02 on or before 30 September 2021. The Underwriter will receive an additional 15,000,000 Quoted Options as part of its fees under the Underwriting Agreement.

The extent to which Securities are issued to the Underwriter as a result of underwriting the Entitlement Offer will affect the Underwriter's voting power in the Company. The Underwriter is not a related party of the Company for the purpose of the Corporations Act. The Underwritten Securities may be taken up by sub-underwriters of the Underwriter in accordance with the Underwriting Agreement.

The maximum potential increase in voting power of the Underwriter as a result of underwriting the Entitlement Offer is set out below (assuming the Underwriter does not exercise any Options prior to the Record Date).

Take up by Underwriter	Underwritten Shares	Underwritten Quoted Options	Underwritten Value	Shares held on completion	Existing voting power	Voting power on completion
100%	679,430,439	226,476,813	\$2,038,291	679,645,391	0.009%	21.44%
75%	509,572,829	169,857,610	\$1,528,718	509,787,781	0.009%	16.08%
50%	339,715,220	113,238,407	\$1,019,146	339,930,172	0.009%	10.72%
25%	169,857,610	56,619,203	\$509,573	170,072,562	0.009%	5.36%
0%	-	-	-	214,952	0.009%	0.007%

As set out in the table above, depending on the level of acceptances by Eligible Shareholders of their entitlements, the take up of Underwritten Shares by the Underwriter and the ability of the Underwriter to secure sub-underwriters, the maximum potential increase in the Underwriter's voting power may theoretically exceed 20%.

Under section 606 of the Corporations Act, a person cannot acquire a relevant interest in the issued voting shares of a company if, because of a transaction in relation to securities of that company, a person's voting power in the company increases from 20% or below to more than 20% or from a starting point that is above 20% and below 90%.

There are certain exceptions to the above prohibition in section 611 of the Corporations Act. Item 13 of section 611 provides an exception for an acquisition that results from an issue of securities to a person as underwriter or sub-underwriter when:

- the issue is made under a disclosure document; and
- the effect of the acquisition on the person's voting power is disclosed in the disclosure document.

Although the table above indicates that the underwriting of the Entitlement Offer by the Underwriter may result in its voting power increasing to more than 20%, the Underwriter has engaged various sub-underwriters for the Entitlement Offer. Pursuant to the Underwriting Agreement, the Underwriter must ensure that no person will acquire, through participation in sub-underwriting the Entitlement Offer, a holding of Shares of, or increase their holding, to an amount in excess of 19.9% of all the Shares on issue on completion of the Entitlement Offer.

Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted by approximately 27% (as compared to their holdings and the number of Shares on issue at the date of this Prospectus). Examples of how the dilution may impact Shareholders, assuming no Options are exercised before the Record Date, are set out in the table below.

Holder	Holding at Record Date	Voting power at Record Date	Entitlement under Entitlement Offer	Holding if entitlement not taken up	Voting power on completion
Shareholder 1	100,000,000	4.01%	27,272,727	100,000,000	3.15%
Shareholder 2	50,000,000	2.01%	13,636,364	50,000,000	1.58%
Shareholder 3	10,000,000	0.40%	2,727,273	10,000,000	0.32%
Shareholder 4	5,000,000	0.20%	1,363,636	5,000,000	0.16%

Notes:

- 1 The dilutionary effect shown in the table is the maximum percentage on the assumption that those entitlements not accepted are placed under section 1.11 or taken up by the Underwriter.

No Shares will be issued under this Prospectus if the issue of Shares would contravene the takeover prohibition in section 606 of the Corporations Act.

2.4 Financial position

Set out below is the audit reviewed statement of financial position at 30 June 2020 and an unaudited pro forma statement of financial position at 30 June 2020. The pro forma statement of financial position has been prepared on the basis and assumption that there have been no material movements in the assets and liabilities of the Company between 30 June 2020 and completion of the Entitlement Offer other than:

- the issue of 4 convertible notes with (among other things) a deemed aggregate face value of A\$1,127,826, interest rate of 10%, conversion price of \$0.003 per Share and maturity date of 30 June 2022 to the Copulos Group in discharge of A\$1,127,826 in debt owing to the Copulos Group (as approved by Shareholders on 31 July 2020);
- the repayment of a convertible note held by the Copulos Group in cash totalling A\$183,239.15 inclusive of capitalised interest;
- the issue of 679,430,439 Shares under the Entitlement Offer, which will raise A\$2,038,291 in cash before costs; and
- the estimated costs of A\$200,000 under the Entitlement Offer, which is shown as a deduction against issued capital.

The historical and pro forma financial information is presented in an abbreviated form, and it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

The Company considers that the matters summarised in this section 3, which are not exhaustive, represent some of the major risk factors which Shareholders need to be aware of in evaluating the Company's business and risks of increasing your investment in the Company. Investors should carefully consider the following factors in addition to the other information presented in this Prospectus.

3.2 Specific risks

The Company considers that it has sufficient funds to adequately meet its current expenditure commitments and short-term working capital requirements.

3.2.2 Future capital needs

Additional funding may be required by the Company to effectively implement its business and operations plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which it may incur. Any need to raise further capital for operational matters will depend on the Plomosas mine operations and resultant level of revenue.

The Company's ability to raise further capital (equity or debt) within an acceptable time, of a sufficient amount and on terms acceptable to the Company will vary according to a number of factors, including the operations of the Plomosas mine, stock market and industry conditions, relevant commodity prices and exchange rates.

Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its business. Further, if adequate funds are not available on acceptable terms, it may impact the ability of the Company to continue as a going concern.

3.2.3 Coronavirus (COVID-19)

Global economic outlook is facing uncertainty due to the current COVID-19 pandemic, which has had and may continue to have a significant impact on capital markets and share prices. The Company's Share price may also be adversely affected by the economic uncertainty caused by COVID-19.

Further, any measures to limit the transmission of the virus implemented by governments around the world (such as travel bans and quarantining) may adversely impact the Company's operations.

As a result of COVID-19, the Mexican government restricted all non-essential businesses and as such the Company was prevented from operating at the Plomosas Project from 6 April 2020 to 1 June 2020. On 1 June 2020, the Mexican government announced that all mining operations would be deemed essential. Therefore, the Company has been permitted to recommence mining activities.

Although mining activities have now been deemed an essential service in Mexico, there is no guarantee that the Mexican government will maintain this position, which could again adversely affect the Company's operations.

3.2.4 Resource and reserve estimates

The Plomosas Project features Mineral Resources. Mineral Resource and Ore Reserve estimates are expressions of judgment based on knowledge, experience, and resource modelling. As such, resource and reserve estimates are inherently imprecise and rely to some extent on interpretations made.

Additionally, resource and reserve estimates may change over time as new information becomes available. If the Company encounters mineralisation or geological formations different from those predicted by past drilling, sampling and interpretations, resource estimates may need to be altered in a way that could adversely affect the Company's operations.

3.2.5 Underground mining and operations

The Company conducts mining operations at the Plomosas underground mine in the northern Mexican state of Chihuahua. The Company recommenced mining in September 2018 and mines ore featuring zinc, lead and silver.

Underground mining is by its nature a high risk undertaking where operations can be affected by a number of factors. These include, but are not limited to, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, unexpected shortages or increases in the price of consumables and inputs (including diesel), spare parts and plant and equipment, labour disputes, industrial accidents including fire, flood and collapse, unusual or unexpected geological formations or hydrogeological conditions including flooding.

3.2.6 Ore treatment

As announced on 1 April 2019, the Company entered into a toll treatment agreement with the operator of the Aldama concentrator facility, located approximately 70 kilometres from the Plomosas mine. The term of the agreement is 18 months with a 6 month extension at the Company's election. The Company has since exercised its option to extend the toll treatment agreement for a further 6 months and will continue to utilise the Aldama concentrator facility until the Plomosas facility commences production.

The effective treatment of the ore is reliant on the third party operator and the concentrator facility's ability to process ore effectively. Expansion works were undertaken to upgrade the concentrator facility's capacity to process ore. These expansion works were partly funded by the Company. Ore treatment is by its nature a high risk undertaking where operations can be affected by a number of factors. These include, but are not limited to, unanticipated technical and operational difficulties, mechanical failure of operating plant and equipment, unexpected shortages or increases in the price of consumables and inputs (including reagents and power), spare parts and plant and equipment, labour disputes, and industrial accidents.

3.2.7 Exploration

The Company will undertake further exploration at its Plomosas Project. Exploration is by its nature a high risk undertaking and is affected by a range of factors including geological conditions, limitations

on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, land access, changing government regulations and other factors beyond the Company's control.

There can be no assurance of success from any exploration activities.

3.2.8 Refurbishment risk

To complete the transition to concentrate production from the Company's facility, a refurbishment of the existing concentrator and construction of a tailings storage facility are required. To achieve this, there remain a number of activities yet to be completed. There can be no guarantee that these activities will be completed within the Company's forecast timing or costings (or at all) and, even where the activities are completed within the Company's forecast timing or costings, additional work may be required. Accordingly, there is a risk that the Company may require additional funds (in addition to funds raised under the Entitlement Offer) to complete the transition to concentrate production. In addition, if the Company fails to complete the transition to concentrate production, this may have an adverse effect on the Company's future prospects.

3.2.9 Commodity price and volatility

Zinc, lead and silver (in concentrates) are produced from the Plomosas mine. The success of the operations at the Plomosas mine is reliant on the prices of these commodities.

Commodity prices (including zinc, lead, silver, and gold) fluctuate and are affected by numerous factors beyond the control of the Company. These factors include worldwide and regional supply and demand for commodities, forward selling by producers and production cost levels, general world economic conditions and the outlook for interest rates, inflation, and other economic factors on both a regional and global basis. These factors may have a positive or negative-effect on the Company's activities, together with the ability to fund these activities.

3.2.10 Sale of product

The concentrate products produced by the Company after mining and processing are zinc and lead concentrates. The Company has an offtake agreement for 100% of its zinc concentrate, with Industrias Penoles S.A. de C.V. (**Penoles**), one of the world's leading zinc refiners. The zinc offtake agreement runs to 31 December 2020 with options, at Penoles' election, to be extended for a further 2 years. Penoles exercised its first 1 year option to purchase 100% of zinc concentrate produced to 31 December 2021. Lead concentrate is sold to global commodity trading houses at spot volumes on short term contracts. The failure of Penoles to exercise remaining 1 year option to extend the zinc offtake agreement for the period of 1 January 2022 to 31 December 2022 or any unfavourable movements in the spot volumes of lead concentrate may negatively impact the Company.

3.2.11 Treatment charges

Treatment charges apply to zinc and lead concentrates. The Plomosas zinc concentrate treatment charges are linked to the international benchmark, which is reset annually in approximately April of each year. The lead treatment charge is negotiated on a spot volume basis and is subject to prevailing market conditions at the time of agreeing a spot sale. If there is a material change in the treatment charges that apply to zinc and lead concentrates this could adversely impact the Company's cost base.

3.2.12 Legal proceedings

Legal proceedings may arise from time to time in the course of the Company's business.

As announced on 10 August 2018, a claim has been threatened by Pandion Minerals Pty Ltd alleging it is entitled to a 10% free carried interest in the Plomosas Project until a definitive feasibility study is completed. The Company considers the claim to be unfounded.

The Mexican legal system is based on French Napoleonic law, which differs significantly from English based legal systems. Legal disputes like the two below can take more than one year to

resolve and there can be no reliable timeframe for resolution. The Company continues to operate with all its rights in place whilst the disputes are on-going.

As announced on 3 December 2019, Caminos y Construcciones Ganti S.A. de C.V. (**Ganti**) was terminated as the mining contractor at the Plomosas Project. The Company's decision to terminate the mining contract was a result of an annual review which identified significant overcharging and underperformance by Ganti. Rather than follow the contractual conflict resolution scheme in relation to disputed cost claims, Ganti submitted legal proceedings in the Federal District Court of Mexico claiming final costs outstanding of Mexican Peso 23,632,639 (inclusive of 16% VAT) (approximately US\$1,255,719). This action is being defended, details and updates have been announced on 13 January 2020, 3 February 2020 and 7 February 2020.

Further, the Company notes that a local rancher made a claim against the Company's Mexican subsidiary that operates the Plomosas mine. The claim relates to seeking termination of a land use agreement. As announced on 5 September 2019 the Appeals Court of Chihuahua has ruled in favour of the Company's subsidiary against the rancher and confirmed that the Company's subsidiary has a valid and enforceable land use agreement. Subsequently, the local rancher's wife has made a claim seeking termination of the land use agreement. She was not a party to the land use agreement but has based her claim on recent legislative changes in Mexico in relation to marital assets. The Company has received legal advice that there is no basis for the claim and as such the Company will defend its rights and considers the claim vexatious.

At the date of this Prospectus, there are no other material legal proceedings affecting the Company, and neither the Company or its Directors are aware of any legal proceedings pending or threatened against or affecting the Company.

3.2.13 Reliance on key personnel

The Company's success largely depends on the core competencies of its Directors and management and their familiarisation with, and ability to operate in, the resource industry.

3.2.14 Title and licence conditions

The Plomosas Project covers 11 mining leases in the northern Mexican state of Chihuahua. The Company's activities are dependent upon the maintenance of these concessions and any regulatory consents. The concessions are subject to renewal.

Additionally, the concessions are subject to a number of legislative conditions. The inability to meet these conditions could affect the standing of the concessions or restrict their ability to be renewed.

Loss of any concessions or licences may severely adversely affect the Company.

3.2.15 Land access

The Plomosas Project covers 11 leases in the northern Mexican state of Chihuahua.

The Company has a land use agreement with a local rancher to enable appropriate land access for exploration and mining on the mining leases. The Company needs a valid and effective land use agreement in place to ensure appropriate access.

3.2.16 Environmental

The Plomosas Project is subject to laws and regulations regarding environmental matters. The authorities that administer and enforce environmental laws and regulations determine these requirements. As with all mining and exploration projects, the Company's activities are expected to have an impact on the environment. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with applicable laws.

Failure to obtain or maintain relevant environmental approvals will prevent the Company from undertaking its activities.

3.2.17 Foreign exchange

The Company's main business undertaking (the Plomosas mine) is in Mexico and as a result, any revenues, cash inflows, expenses, capital expenditure and commitments may occur in United States dollars or Mexican pesos.

The Company may be exposed to the fluctuations and volatility of these currencies together with the Australian dollar.

3.2.18 Jurisdiction

The Plomosas is located in the northern Mexican state of Chihuahua. Mexico is a federal presidential democratic republic.

The political conditions in Mexico are generally stable, however, changes may occur in the political, fiscal and legal systems which may affect the ownership or operations of the Company including changes in exchange rates, control or fiscal regulations, regulatory regimes, political insurrection or labour unrest, inflation or economic recession.

3.2.19 Union disputes, blockages and unrest

Union disputes, blockages and unrest may occur in Mexico and restrict the ability of the Company to conduct its mining operations and the transport, processing and sale of its concentrate from the Plomosas mine.

3.2.20 Insurance

The Company may maintain insurance within ranges of coverage that it believes to be consistent with industry practice and having regard to the nature of activities being conducted. However, it is not always possible to cost-effectively insure or obtain insurance against all risks associated with such activities. The Company may decide not to take out insurance against certain risks as a result of high premiums or for other reasons. Should liabilities arise on uninsured risks, the Company's business, financial condition and results of operations and the market price of the Shares may be materially adversely affected.

3.2.21 Climate change

The operations and activities of the Company are subject to changes to local or international compliance regulations related to climate change mitigation efforts, specific taxation or penalties for carbon emissions or environmental damage, and other possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences. Climate change may also cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns, incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

3.3 General risks

3.3.1 Economic

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's research, development and production activities, as well as on its ability to fund those activities.

3.3.2 Market conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- introduction of tax reform or other new legislation;
- interest rates and inflation rates;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital;
- fear of global pandemics; and
- terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resources stocks in particular. Neither the Company or its Directors warrant the future performance of the Company or any return on an investment in the Company.

3.3.3 Dividends

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

3.3.4 Unforeseen expenditure

Expenditure may need to be incurred that has not been taken into account in the preparation of this Prospectus. Although the Company is not aware of any additional expenditure requirements, if such expenditure is subsequently incurred, this may adversely affect the expenditure proposals of the Company.

3.3.5 General economic climate

Factors such as inflation, currency fluctuation, interest rates and supply and demand have an impact on operating costs, and stock market prices. The Company's future revenues and security price may be affected by these factors, which are beyond the Company's control.

3.3.6 Global credit and investment market

Global credit, commodity and investment markets have recently experienced a high degree of uncertainty and volatility. The factors which have led to this situation have been outside the control of the Company and may continue for some time resulting in continued volatility and uncertainty in world stock markets (including the ASX). This may impact the price at which the Company's Shares trade regardless of operating performance, and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required.

3.3.7 Force majeure

Events may occur within or outside the markets in which the Company operates that could impact upon the global and Australian economies, the operations of the Company and the market price of its securities. These events include acts of terrorism, outbreaks of international hostilities, fires, pandemics, floods, earthquakes, labour strikes, civil wars, natural disasters, outbreaks of disease, and other man-made or natural events or occurrences that can have an adverse effect on the demand for the Company's services and its ability to conduct business. Given the Company has only a limited ability to insure against some of these risks, its business, financial performance and operations may be materially adversely affected if any of the events described above occurs.

3.3.8 Tax

The acquisition and disposal of securities may have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors of the Company are urged to obtain independent financial advice about the consequences of acquiring securities in the Company from a taxation point of view and generally.

3.3.9 Speculative investment

The above list of risk factors should not be taken as exhaustive of the risks faced by the Company or by investors in the Company. Investors should consider an investment in the Company as highly speculative and should consult their professional advisors before deciding whether to participate in an Entitlement Offer. The securities offered under this Prospectus carry no guarantee with respect to the payment of dividends, return of capital or their market value.

- take up all or part of their entitlement under the Entitlement Offer;
- if they take up all of their entitlement, subscribe for any Shortfall; or
- do nothing.

The Entitlement Offer is a non-renounceable pro rata offer to Eligible Shareholders. Eligible Shareholders are entitled to 1 free attaching Quoted Option for every 3 Shares subscribed for and issued under the Entitlement Offer.

The Entitlement Offer is fully underwritten (please see section 5.1 for further details). The issue of Shares may dilute the percentage holdings of Shareholders. For further details on the effects of the Entitlement Offer, please refer to section 2.

4.3 Take up all or part of entitlement

Eligible Shareholders who wish to take up all or part of their entitlement under the Entitlement Offer should complete the Application Form in respect of the number of Shares they wish to subscribe for and arrange for payment of the Application Monies in accordance with section 4.6.

4.5 Allow all or part of entitlement to lapse

If Eligible Shareholders decide not to accept all or part of their entitlement to Shares, or fail to accept by the Closing Date, the part of their entitlement not accepted will lapse. The Shares not subscribed for will form part of the Shortfall, which will be taken up by the Underwriter or those Eligible Shareholders that subscribe for the Shortfall.

Eligible Shareholders should note that if they do not take up their entitlement then although they will continue to own the same number of Shares, their percentage holding in the Company will be diluted.

4.6 Making an application

Eligible Shareholders have 2 payment options in order to take up their entitlements under the Entitlement Offer.

4.6.1 Option 1: Submit a completed Application Form together with a cheque, bank draft or money order.

To follow option 1, applicants should:

- complete the personalised Application Form accompanying this Prospectus in accordance with the instructions set out on that form, and indicate the number of Shares they wish to subscribe for; and

 - in Australian currency drawn on an Australian branch of a financial institution; and
 - made payable to 'Consolidated Zinc Limited – Application Account' and crossed 'Not Negotiable'.

Applicants should ensure that sufficient funds are held in the relevant account(s) to cover the Application Monies. If the amount of the cheque for Application Monies (or the amount for which the cheque clears in time for allocation) is insufficient to pay for the number of Shares (including any Shortfall) applied for in the Application Form in full, the applicant will be taken to have applied for the lower number of whole Shares as the cleared Application Monies will pay for, and to have specified that number of Shares in the Application Form. Alternatively, the application may be rejected.

Cash payments will not be accepted. Receipts for payment will not be issued.

Applicants need to ensure that their completed Application Form and cheque, bank draft or money order reaches the Share Registry at the address below by no later than 5.00pm (AEST) on the Closing Date.

To follow option 2, applicants should pay the full Application Monies, being \$0.003 multiplied by the number of Shares (including any Shortfall) the applicant wishes to subscribe for, via BPAY® payment in accordance with the instructions set out on the personalised Application Form (which includes the biller code and the applicant's unique customer reference number). Applicants can only make a payment via BPAY® if they are the holder of an account with an Australian financial institution.

Please note that if payment is made by BPAY®:

- the applicant does not need to submit the personalised Application Form but is taken to make the statements on that form; and

Applicants need to ensure that their BPAY® payment is received by the Share Registry by no later than 5.00pm (AEST) on the Closing Date. Applicants should be aware that their own financial

institution may implement earlier cut off times with regards to electronic payment and should therefore take this into consideration when making payment. It is the responsibility of the applicant to ensure that funds are submitted through BPAY® by the date and time mentioned above.

5.6 Shares

5.6.1 Overview

A summary of the rights and liabilities attaching to Shares is set out below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to the Shares in any specific circumstances, the Shareholder should seek legal advice.

5.6.2 Voting

At a general meeting of the Company on a show of hands, every member present in person, or by proxy, attorney or representative has one vote and upon a poll, every member present in person, or by proxy, attorney or representative has one vote for every fully paid up Share held by them. In the case of a partly paid share, a fraction of a vote equivalent to the proportion which the amount paid up on that member's share bears to the total amounts paid and payable (excluding amounts credited) on that share.

5.6.3 Dividends

Subject to law and any special rights and restrictions attached to any Shares:

- the Directors may declare and pay dividends as appear to them to be justified by the profits of the Company; and
- the person entitled to a dividend on a Share is entitled to:
 - if the Share is fully paid (whether the issue price of the Share was paid or credited or both), the entire dividend; or
 - if the Share is partly paid, a proportion of that dividend equal to the proportion which the amount paid on that Share bears to the total issue price of that Share. Any amounts credited without payment in money or other consideration being made to the Company and any amounts paid up in advance of the applicable due date for payment are ignored when calculating the proportion.

5.6.4 Winding up

If the Company is wound up and after payment of all debts and satisfaction of liabilities a surplus remains, it may be distributed amongst Shareholders entitled to it in proportion to the number of Shares held by each of them regardless of the amounts paid up on the Shares.

5.6.5 Further increases in capital

Subject to restrictions on the issue or grant of securities contained in the Listing Rules, ASX Settlement Operating Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors have the right to issue shares or grant options over unissued shares to any person and they may do so at such times as they think fit and on the conditions they think fit.

Such shares may have preferred, deferred or other special rights or special restrictions about dividends, voting, return of capital, participation in the property of the Company on a winding up or otherwise, as the Directors think fit.

5.6.6 Variation of rights

The rights attached to any class of shares may, unless their terms of issue state otherwise, be varied:

- with the written consent of the holders of 75% of the shares of the class; or
- by a special resolution passed at a separate meeting of the holders of shares of the class.

5.6.7 Transfer of securities

Generally, the shares and options in the Company will be freely transferable, subject to satisfying the usual requirements of security transfers on the ASX. The Directors may decline to register any transfer of shares but only where permitted to do so under the Constitution or the Listing Rules.

5.6.8 Sale of non-marketable holdings

The Company may take steps in respect of non-marketable holdings of shares in the Company to effect an orderly sale of those shares in the event that holders do not take steps to retain their holdings.

The Company may only take steps to eliminate non-marketable holdings in accordance with the Constitution and the Listing Rules.

5.6.9 Alteration of Constitution

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

5.6.10 Shareholder liability

As Shares are fully paid shares, they are not subject to any calls for money by the Company and will therefore not become liable for forfeiture.

5.7 Quoted Options

5.7.1 Overview

Quoted Options will have the same terms as the Company's other ASX-quoted Options on issue (ASX:CZLOB), which are broadly as set out below.

5.7.2 Entitlement

5.7.3 Exercise Price

5.7.4 Expiry Date

Each Quoted Option will expire at 5:00pm (AWST) on 1 June 2023 (**Expiry Date**). A Quoted Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

5.7.5 Exercise Period

The Quoted Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

5.7.6 Notice of Exercise

The Quoted Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Quoted Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

5.7.7 Exercise Date

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Quoted Option being exercised in cleared funds (**Exercise Date**).

5.7.8 Timing of issue of Shares on exercise

Within 10 Business Days after the Exercise Date, the Company will:

- (a) issue the number of Shares required under these terms and conditions in respect of the number of Quoted Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (b) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (c) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Quoted Options.

If a notice delivered under 5.7.8(b) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

5.7.9 Shares issued on exercise

Shares issued on exercise of the Quoted Options rank equally with the then issued shares of the Company.

5.7.10 Reconstruction of capital

If at any time the issued capital of the Company is reconstructed, all rights of a Quoted Option holder are to be changed in a manner consistent with the Corporations Act and the Listing Rules at the time of the reconstruction.

5.7.11 Participation in new issues

There are no participation rights or entitlements inherent in the Quoted Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Quoted Options without exercising Quoted Options.

5.7.12 Change in exercise price

A Quoted Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Quoted Option can be exercised.

5.7.13 Transferability

The Quoted Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.
